Web Technologies

Assignment – HTML Forms

Write a HTML page with a summer course registration form containing the following:

1. Student Name
2. SRN
3. Dropdown list to select department of student
4. Checkboxes with course list (atleast 8 courses – 2 in a line)
5. Radio button (Online or Offline mode)
6. Textarea for Expectations from the courses
7. Submit and reset buttons

The form should send the details to “register.php” as a “post” http request and display the response from register.php on a new tab.
