#### **Question Bank - CSS**

4. For any of the table created by you, apply the following CSS rules
- a. All table headings with class “important” are displayed in red colour
  - b. All other cells have a blue text
  - c. Hover over any cell of the table changes the background colour to yellow

```
th.important {  
    color: red;  
}  
td {  
    color: blue;  
}  
td:hover {  
    background-color: yellow;  
}
```
